

Lions Planting A Million Trees.

An important part of our extension of service this year is caring for our environment.

Our goal this year is to plant a million trees around the world and here in District 105SW we are hoping to plant some of these by creating at least one Lions Woodland which ideally, will be accessible by the Community!

Clubs may also wish to conduct smaller tree plantings within their own communities!

Any of us can plant a tree. It's a very visible and hands-on way for each and every Lion to make a difference. It's also a great project to invite your community at-large to join your Lions club in a collaborative effort. If we can plant a million trees across the World, it will reinforce the limitless potential we all know we have to make a difference as Lions.

TOGETHER WE CAN

MAKE A GREENER FUTURE

I am still looking for land to plant as many trees as possible to create large or small woodland. If you can help please contact me:

**District Officer Lion Ian Snell
0845 833 6725.
info@iansnell.co.uk**

If you are looking to plant trees in your community then check out this link: <http://www.woodlandtrust.org.uk> and click on The Jubilee woods project.
