

July 2011

Dear Lion President

With the new Lionistic Year newly started, we would like you to be fully aware of how the new District Governors Team program will affect you and your club.

As I'm sure you're aware, for the last 3 years we've had District Governor, 1st Vice District Governor and 2nd Vice District Governor. These 3 Lions will work very closely together to build and develop our already successful District.

This has been done for several reasons, but one of the main ones is that it means the District can efficiently covered without so much financial commitment by just one person. With fuel costs rising it makes sense to spread the cost of official club visits and Charters through-out the DG's team.

With this in mind we have devised a program whereby each club will still have an official visit every year, but it could be from any of the 3 members of the team, making sure of course that each club sees the District Governor every three years. Each of the 3 will have the same role when at your club, and no club must feel in any way slighted because their 'official visit' was not from the District Governor this year.

We will always endeavour to bring to clubs up to date news from the District and beyond, but first and foremost the team will be there to offer support and help, as and when needed.

Please try not to think of these visits as an intrusion. They are more especially for the member of the team to become more familiar with all the different ways that you, as grass roots Lions, make the district as successful as it is.

Lion Marianne Warren
2nd Vice District Governor
