Dear Marjorie Cane

The Chestnut Appeal for Prostate Cancer

I would like to reply to your email asking if any donations from the charity are DEFINITELY ring fenced to purchase two mobile scanners. Yes. this is the case.

As for the query about 'any donations being paid to the NHS and absorbed in their general funding. This could never happen. we as a registered charity *are* only based inside a hospital, we are not governed by the NHS and we stand alone from them. We also currently receive no grants or funding from local government or councils.

We wouldn't be able to provide the very latest in technology or bring ground-breaking prostate cancer treatments to the area without donations like this one from The Lions and we are so very grateful for all your support As you may know we have already funded six prostate cancer nurses as well as some of the very latest equipment and treatments available. We will always ensure that your donation will go to where it is needed most in our community and in this case we shall be using it for the 2 mobile scanners also known as TRUS machines for short.

I really hope this letter has helped.
Spreading awareness *is at the heart* of everything we do and to find out about the very latest work of the charity then please look at our website www.chestnutappeal.org.uk or call us on 01752 792 736

Kindest regards & thank you again,

THE CHESTNUT APPEAL FOR PROSTATE
CANCER
