

Training Workshop 105SW

Public Relations for District and Club Officers and Members

Ever aware of the need to take every opportunity to enhance the impact of our Lions image and awareness of our activities on the public, both locally and across the British Isles and Ireland, and to gain the availability and professional advice, we have organised a training workshop which will be available to all clubs. We suggest that this is an opportunity which should not be missed and is in particular aimed at those with responsibility for Public Relations and Membership promotions, but does not exclude others who feel they will benefit from attending.

The days programme has been prepared and compiled in conjunction with Heather Yaxley, who has a national training role with the Chartered Institute of Public Relations. Heather will be the main presenter, consequently the programme is aimed at the skills and advice that will be beneficial to the objectives of Lions in MD105 SW, D and W.
