

# **Project Plastic Pick**

**Plastic of all types is getting into Rivers and the Oceans  
Killing Marine Life of All Species.**

**Plastic rubbish is also found in our hedges, fields  
and on common land.**

**This is ingested, as well as being entangled on  
animals and birds, resulting in their death**

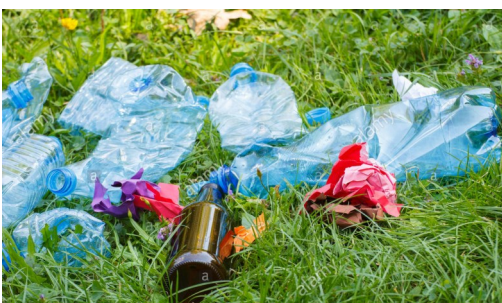

**Most Plastic takes Years to break down**

# **MOST OF IT NEVER WILL**

**WORLD EARTH DAY is on 22nd April**

**Why not organise a Plastic Pick in your Community**

**You can pick up plastic rubbish  
as well as promoting correct recycling**

**Report this on the Monthly Activities Report as an Environmental Project**
