

GDPR--Data Protection Workshops

Welcome to the world of Data Protection for Lions Clubs

Whilst the term “GDPR” may have disappeared from UK legislation, the concepts it brought into the UK have not! There is still much confusion around exactly how to implement the compliance measures for Lions Clubs, the Districts and Multiple District 105.

Is your club and/or you still worrying about this? Could you count yourself as one of these Lions :

a) with your head in the sand hoping it will just simply go away?

OR

b) think we have it all sorted, but not actually 100% sure that its appropriate?

MD 105 has appointed me as the MD Data Protection Officer. My name is Lioness/Lion Robyn Banks and I have been working as a specialist in the field of implementing GDPR for 20 years. Since my appointment I have spent the last year helping clubs and Lions across the MD to implement data protection compliance and avoid the fines...

If you would like to understand the principles in plain language and get some advice on why we as an organisation need to adhere to this legislation, but not have “law” rained down upon you, then please “attend” **one** of these on line workshops I have set up as follows:

Friday 1st May 2020 at 3:00pm (BST) OR Tuesday 5th May 2020 at 7:30pm (BST) Click this link to [Book your Workshop](#)

If you have a “burning” question, then please let me know by adding your question to the relevant section when you complete the booking form. Responses will be collated and built into the session or answered individually by email - whichever is appropriate.

Don't worry if you cannot make either of these sessions I am happy to run more if the need is there – after all, “Where's there's a need, there's a Lion”!

Where Lions in the MD 105 and data protection are concerned my aim is to make you “**Happy**” Lions.
