

## **Milk Bottle tops Collection**

A decision was taken at the recent Cabinet meeting to recommend that Clubs cease the collection of the plastic Milk bottle tops.

Because of the Covid-19 pandemic there is the potential problem of Lions putting themselves and others at risk manually sorting through these, making sure that there are only milk bottle tops and that they are clean and suitable for recycling.

This recommendation will be reviewed in the future whether to resume or not, once there is more information and the current situation settles down.
