

## "Collection of used Spectacles and Hearing Aids"

We are currently having difficulties with our supply chain for the delivery and processing of these items.

This has been brought about by a number of factors, including the Carrier not renewing the contract for collection and delivery, and Covid restrictions on social distancing inside the building where the sorting takes place, only 50% of the workforce can gather at any one time.

### Spectacles.

For an interim period, we are asking Clubs to continue collecting these items and storing them, if possible, locally.

If this is proving difficult is there:

- (a) somewhere based within your local area or Zone that may assist, or
- (b) can your Zone Chairperson help, or
- (c) contact either District Officer David Lyons or any member of the District Governor Team.

Do not send directly to Chichester Lions Club.

Remember please spec cases are not required please dispose of these locally. Write on the package / box how many specs are enclosed.

### Hearing Aids.

As per the above.

Thank you for your kind understanding in these matters, please be assured that the District Team are working towards a permanent solution as quickly as possible.
